

19th INTERNATIONAL CONFERENCE ON EXPERIMENTAL MECHANICS

Kraków, Poland, July 17-21, 2022

CALL for Papers!

Special Session on (2) Composites and Adhesives

The Special Session will host the first meeting of the EuraSEM Technical Committee on Composites and Adhesives at ICEM2022 that will provide a great opportunity to exchange views and new ideas with colleagues from all around the world in the field. It is expected to receive papers dealing with cutting-edge issues on research and application of composites and polymer adhesives in all engineering sectors.

Topics that can be covered in this special session include, but are not limited to:

1. Fracture of composites and adhesives
2. Fatigue of composites and adhesives
3. Environmental effects on composites and adhesives
4. Effects of curing on the quasi-static and fatigue performance of composites and adhesives

Abstract Deadline: February 7th, 2022

Abstract Submission : <https://icem19.org>
