

ICEM-2020

**19th International Conference
on Experimental Mechanics**

**5-9.07.2020
Kraków, Poland**

Guidelines for full paper submission in ICEM19 (deadline 15th May 2020)

Dear ICEM19 participant

Thank you for submitting your paper to our conference.

Please follow the guidelines below to submit your manuscript for the proceedings.

1. First register on Sciforum.net with your email address, if you do not have an account yet.
2. Then click the “NEW SUBMISSION” green tab at the top right of the screen.
3. From the drop-down menu select from the list of conferences ICEM19 (currently at the bottom of the list). Click “Continue”
4. Select the unique session “ICEM 2020”
5. Fill in the required information about Poster/Oral presentation. (This is typical, and it is just a requirement of the website. It will not interfere with the preference that you already stated when submitting the abstract)

The screenshot shows the 'New Submission' interface on the sciforum.net website. At the top, there are tabs for 'CONFERENCES', 'PAPERS', 'FEED', 'GROUPS', and 'ABOUT'. Below the tabs, there are icons for messaging, notifications, and user profile, along with a 'NEW SUBMISSION' button and a search bar. The main content area is titled 'New Submission' and includes sections for 'Conference' (selected as 'The Nineteenth International Conference of Experimental Mechanics'), 'Session' (selected as 'ICEM 2020'), 'Poster Presentation' (radio button for 'No' selected), and 'Oral Presentation' (radio button for 'Yes (consider me for short talk)' selected).

6. Fill in the title of your paper below with the abstract number you were given by the conference organizers **as the first 3 digits** (e.g. “225 Characterization of creep rupture in composites by nondestructive techniques”, the abstract and the keywords in the corresponding text boxes).

The screenshot shows the submission form with three text input fields. A red box highlights the 'Title' field, which contains the placeholder text "Here write the title of your paper and DO NOT FORGET to mention the abstract number at the front of the title in this box. E.g. ‘225 Characterization of creep rupture in composites by nondestructive techniques’". A red arrow points to the 'Title' field. The 'Abstract' field is below it, and the 'Keywords' field is at the bottom, both containing empty text areas with rich text editors.

7. Now you are ready to submit your **FULL MANUSCRIPT OF 8 PAGES**. Attach the PDF and the original file (e.g. word) of your full manuscript in the boxes “Abstract (attachment) PDF” and “Abstract original files”. (It does not matter that mentions “abstract”, this is due to the design of the website. You upload **FULL MANUSCRIPT** here)

Click the check box “Open access” to authorize open-access publication of your paper.

The screenshot shows a Mozilla Firefox browser window with the URL <https://sciforum.net/user/submission/7190597a218a60458117>. The page displays fields for manuscript upload (PDF and Word formats) and an open access agreement checkbox. Red annotations highlight the 'Open access' checkbox and the manuscript upload buttons.

Keywords (use semicolon to separate multiple keywords)

Abstract (attachment) PDF

Abstract original files (zip / word)

Open access

I agree with the open access policy and confirm that my submission can be displayed publicly on the website.

Click here to upload FULL MANUSCRIPT of 8 pages in PDF (with a red arrow pointing to the PDF upload button)

Click here to upload FULL MANUSCRIPT of 8 pages in word (with a red arrow pointing to the Word upload button)

Click here (with a red arrow pointing to the open access checkbox)

Cancel Continue to add authors

8. Then you can add authors and affiliations by clicking “Continue to add authors”

9. Finally, you can “Preview submission” and then “Send to editors”

The screenshot shows the same submission page after filling in keywords and selecting open access. It now includes a preview of the manuscript files and an author list table. Red annotations highlight the 'Send to editors' button and the 'Click to finally submit your paper' button.

Keywords

fatigue, thermography

Open access

Yes

Submission files

Abstract_pdf (ICEM18_abstract_Iliopoulos_S_v2.pdf) Abstract_orig (ICEM18_abstract_Iliopoulos_S_v2.docx)

Author list

Order	Author Name	Affiliations	Corresponding Author	Presenter
1	Name1 Surname1	Dept. Mechanics of Materials and Constructions Vrije Universiteit Brussel	no	yes
2	Name2 Surname2	Dept. Mechanics of Materials and Constructions Vrije Universiteit Brussel	yes	no

Go back & edit Send to editors **Click to finally submit your paper**

You will see the following confirmation screen and receive an email by "info@sciforum.net with all the data of your submission. Please check your junk mail folder.

Your full paper for ICEM19 is submitted and the editors will handle it for review.

Thank you very much!

The ICEM19 organizing team
