

19th INTERNATIONAL CONFERENCE ON EXPERIMENTAL MECHANICS

Kraków, Poland, July 17-21, 2022

CALL for Papers!

Symposium

on

(S1) Novel Applications of Experimental Mechanics

This symposium emphasizes the novel applications of various techniques in experimental mechanics. This symposium will serve as a forum for the recent advances in experimental techniques for novel and challenging applications. The organized symposium is intended to be interdisciplinary and open to authors working in different fields with a common interest in experimental techniques. Papers including but not limited to the following topics are welcome:

1. Research and development of new measurement system;
2. Practical applications of experimental mechanics;
3. Applications of experimental mechanics in the new fields (MEMS, nanotechnology, biomechanics, etc.);
4. Industry applications of experimental technology
5. Infrared thermography measurement and evaluation
6. Measurement and evaluation on energy and power systems
7. Measurement and evaluation on novel materials
8. Experimental techniques on Medical Engineering

Organized by:

Prof. Wei-Chung Wang, Department of Power Mechanical Engineering, National Tsing Hua University, Hsinchu, Taiwan, wawang@pme.nthu.edu.tw

Prof. Terry Yuan-Fang Chen, Department of Mechanical Engineering, National Cheng Kung University, Tainan, Taiwan, ctyf@mail.ncku.edu.tw
